

PORSCHE

Tequipment Cayenne

Accessories for the Cayenne model range

Porsche Tequipment. A permanent option for 20 years: upgradable driving pleasure.

20 YEARS
PORSCHE
TEQUIPMENT

Porsche has forever been setting standards. In the development of cars, certainly, and also when it comes to offering aftermarket personalisation and a diverse range of accessories for your Porsche. With 20 years of experience and expertise, Porsche

Tequipment stands for one thing above all: customary Porsche quality.

From the start, the same rules that apply to our vehicles also apply to the products of Porsche Tequipment: developed, tested and proven in Weissach

by the same Porsche engineers and designers who made your car. Designed with the complete vehicle in mind and precisely tailored to your Porsche.

The results are high-quality products that enable you to adapt your Porsche conveniently to your wishes and requirements. Whenever you choose and without any fuss. With products that suit your Porsche – and you.

That also applies to one of our highlights: the SportDesign package. It was developed specifically for the Cayenne and includes a SportDesign front apron and rear apron. Ideal additions to the package are the striking Bi-Xenon main headlights in black and the tinted LED taillights.

Another feature at the rear are the sports tailpipes. A visual presence that can be enhanced further, with the imposing 21-inch Cayenne SportEdition wheels, for instance. These multi-spoke alloy wheels are painted in satin platinum and create a very special impression – a lasting one.

Want more? More sports performance, more comfort, more design? In brief: more individuality? No problem. Whichever Tequipment products you ask your Porsche Centre to fit, your Porsche will always be one thing: an engineering masterpiece from Weissach.

And the warranty? The warranty is completely unaffected. Discover more about Porsche Tequipment from your Porsche Centre. And you can also find all of the products online at www.porsche.com/tequipment with the 'Tequipment accessories finder'.

Exterior	6	Transport and car care	54
From the SportDesign package, through Bi-Xenon main headlights to the wheels. Whatever you choose, your decision will be a reflection of your sporty style.		Your Cayenne packs a lot more than just sportiness. And car care is also covered.	
Performance	30	E-mobility	76
Want to take the idea of performance to the limit? Welcome to the high performance club.		Charging a sports car from an electricity socket – the future? The Cayenne S E-Hybrid.	
Interior	34	Panorama	80
Personalise the interior to your specific taste. And always 100% Porsche.		A quick look around the world of Porsche.	
Audio and communication	46	Index	83
Porsche without communication and efficient management? Unthinkable.			

Contents

For fuel consumption, electricity consumption and CO₂ emissions, please refer to page 82.

You don't achieve those big goals with half-hearted commitment.

Good has never been good enough for the Cayenne. Because it's an enthusiast. Because it changes a stop into acceleration. And fills everyday moments with excitement. In short, because it punctuates each day. With more dynamics, more power, more design and, above all, more presence.

And as you might expect from an enthusiastic athlete, where others have stopped, it is only just getting started. Make use of this great potential and develop the Cayenne exactly how you think it should be.

How about choosing the striking SportDesign package, for example? Or you can enhance its dynamic appearance with tinted LED taillights or sports tailpipes. Or perhaps set a clear example of pure sports performance with the 21-inch Cayenne SportEdition wheels painted in satin platinum.

Exterior

**Paves the way for you.
Even the way to your own ideas.**

[1] SportDesign package

It's the muscles that define an athlete. The SportDesign package was developed specifically for the Cayenne, delivering an unmistakable look and an even more powerful appearance. It comprises a front apron with additional air intakes available in the exterior colour of your vehicle, a painted rear apron, sideskirts, wide and

imposing wheel arch extensions and a roof spoiler which is also available in the exterior colour of your vehicle.

Also available without sideskirts (not shown).

Restricted off-road use.

[2] Bi-Xenon main headlights in black including Porsche Dynamic Light System (PDLS)

Seeing well and looking good. Sometimes one and the same thing. With Bi-Xenon main headlights including Porsche Dynamic Light System (PDLS) both are possible. The dark chrome internal parts and black painted edging lend your Cayenne an individual appearance.

Only for vehicles with Bi-Xenon main headlights including Porsche Dynamic Light System (PDLS). Same function and geometry as standard headlights.

[3] Tinted LED taillights

These LED taillights make a lasting sporty impression. They feature dark red lenses and a black finish on selected internal parts, for an appealing overall dark look.

Same function and geometry as standard taillights.

1, 2

2

3

[1] Wheel arch extensions

Designed to make your Cayenne look even more dynamic, these distinctive wheel arch extensions provide protection for the wheel arch edges and enhance the

individual appearance of the vehicle.

Three versions are available: wheel arch extensions (21-inch), wheel arch extensions painted (not shown) and wheel arch extensions in black (not shown).

[2] Running boards

Make your Cayenne even more individual and also enable easier access to the passenger compartment and roof.

Restricted off-road use.

[3] Stainless steel front skid plate

The stainless steel front skid plate gives your Cayenne an even more striking appearance. We recommend combining it with the stainless steel rear skid plate.

[4] Stainless steel rear skid plate

The stainless steel rear skid plate gives the rear of your Cayenne a more sporty emphasis. We recommend combining it with the stainless steel front skid plate.

**You can be on cloud nine.
Whilst staying firmly on the ground.**

An athlete doesn't just need power, they must also be able to use it. In addition to the right equipment, a sports car needs the right connection with the road – the wheels.

So, at Porsche, our wheels are developed using the same principle by which we develop our vehicles: everything revolves around sport. We've also further improved our tyres, for better driving performance, handling and weight. Our wheels can therefore provide a good basis for improved fuel economy, high performance and of course, driving pleasure.

[1] 21-inch Cayenne SportEdition wheels painted in satin platinum with summer tyres

Sporty or elegant? The 21-inch alloy Cayenne SportEdition wheels with summer tyres combine both. With a multi-spoke design painted in satin platinum they are not only extremely striking, they also boast high performance, to which the

large wheel contact surface also contributes. Right down to the last detail, wheels that convincingly deliver optimum driving dynamics. Wheel centres in satin platinum with a full-colour Porsche Crest are included.

[1] 21-inch Cayenne SportEdition wheels painted in black (high-gloss) with summer tyres

These one-piece multi-spoke alloy wheels for the Cayenne are as imposing as they are sporty. The centre spokes are painted in black (high-gloss) and wheel centres in black with a full-colour Porsche Crest are included.

[2] 21-inch Cayenne SportEdition wheels with summer tyres

The 21-inch Cayenne SportEdition cast-alloy wheels with a multi-spoke design are as powerful as they are elegant. With a width of 10 inches at the front and rear, the resulting large wheel contact surface

will optimise dynamic performance and give your vehicle a striking appearance.

[3] 21-inch Cayenne Sport Classic wheels with summer tyres

These one-piece, five-spoke Sport Classic design alloy wheels are closely linked with 911 history. They were developed on the basis of the historic Fuchs wheel, which was used for the first time in 1966 on the Porsche 911 S. The aluminium wheels are

light but strong. The low weight means lower unsprung mass, resulting in a more comfortable, responsive drive. In addition to optimum driving dynamics, these wheels, painted in GT Silver Metallic with polished surrounding edge, also provide an extremely dynamic look.

[4] 21-inch Cayenne Sport Classic wheels painted in black (high-gloss) with summer tyres

These one-piece, five-spoke Sport Classic design alloy wheels are imposing to look at. Painted in black (high-gloss), they have a high-gloss polished surrounding edge and make the Cayenne look even more impressive. Wheel centres with full-colour Porsche Crest are included.

4

[1] 21-inch Cayenne Sport Classic wheels painted in satin platinum with summer tyres

As elegant as they are sporty: one-piece, five-spoke Sport Classic design alloy wheels painted in satin platinum.

Emphasising the dynamic performance of the Cayenne, while giving it an elegant appearance. Wheel centres with full-colour Porsche Crest are included.

[2] 21-inch 911 Turbo Design wheels with summer tyres

This set of wheels with summer tyres highlights the agility of your Cayenne and also ensures good contact with the road.

With their two-tone finish, these multi-spoke lightweight wheels create a dynamic look.

[3] 20-inch RS Spyder Design wheels with summer or winter tyres

This design is derived from the wheels that adorned the successful Porsche RS Spyder race car. The multi-spoke design

of these aluminium alloy wheels is a motorsport hallmark. Wheels come with a choice of summer or winter tyres.

[4] 20-inch Cayenne SportDesign II wheels with summer or winter tyres

These one-piece alloy wheels with 10-spoke design look good at any time of year and in combination with winter tyres, they provide excellent traction even in the colder months.

[5] 19-inch Cayenne Turbo wheels with summer or winter tyres

These one-piece alloy wheels with dual-arm spokes don't just emphasise the sporty appearance of your Cayenne. They also provide exceptional driving properties.

[1] 19-inch Cayenne Design II wheels with all-season, summer or winter tyres

No matter what the season, with lightweight 19-inch Cayenne Design II wheels with five dual-arm spokes you are always prepared.

[2] 19-inch Cayenne Sport Classic wheels with summer or winter tyres

These one-piece, five-spoke Sport Classic design alloy wheels emphasise the dynamic performance of your Cayenne.

Painted in GT Silver Metallic with high-gloss polished surrounding edge, they also ensure excellent roadholding.

[3] 19-inch Cayenne Sport Classic wheels painted in satin platinum with summer or winter tyres

As if cast as one. The Cayenne and the one-piece, five-spoke Sport Classic design alloy wheels. Painted in satin platinum,

they are the perfect match for your Porsche. At any time of year. Wheel centres with full-colour Porsche Crest are included.

[4] 18-inch Cayenne S wheels with winter tyres

These sporty wheels with five dual spokes not only guarantee that you will make good progress in the winter. Their design

also gives an excellent view of the brake caliper – another unmistakable detail of your Cayenne.

[5] 18-inch Cayenne wheels with winter tyres

These one-piece multi-spoke alloy wheels make an important contribution to safety in cold weather and are characterised by their good traction and appealing design.

○ Compatible

— Not compatible

¹ Only in conjunction with wheel arch extensions.

² Winter tyres up to max. 240 km/h.

³ Not for vehicles fitted with Porsche Ceramic Composite Brake (PCCB).

If your vehicle documents do not contain details of the correct wheel and tyre combination, please request a technical approval certificate from your Porsche Centre.

Note: the wheel centres shown are not included, except in the case of the 21-inch Cayenne SportEdition wheels painted in satin platinum or black (high-gloss), the 21-inch Cayenne Sport Classic wheels painted in satin platinum or black (high-gloss) and the 19-inch Cayenne Sport Classic wheels painted in satin platinum.

All tyres fitted are designed exclusively for Porsche, as indicated by the special Porsche designation (N0, N1, etc.) on the sidewall. Tyres that do not carry this designation are not recommended for use on your Porsche.

Note on the use of winter tyres.

Summer tyres provide optimum performance at ambient temperatures above +7 °C. Below this point, the tyre compound begins to harden and braking distances are increased. We therefore

recommend that you fit winter tyres during the colder months of the year so that you can drive your Cayenne safe in the knowledge that it will continue to meet our high standards for driving safety, even

at low temperatures. All winter tyres approved by Porsche are identified by an 'N' designation on the sidewall. Benefits: the tyres are noise-optimised. There is also less rolling resistance, which helps reduce fuel consumption.

[1] Snow chains

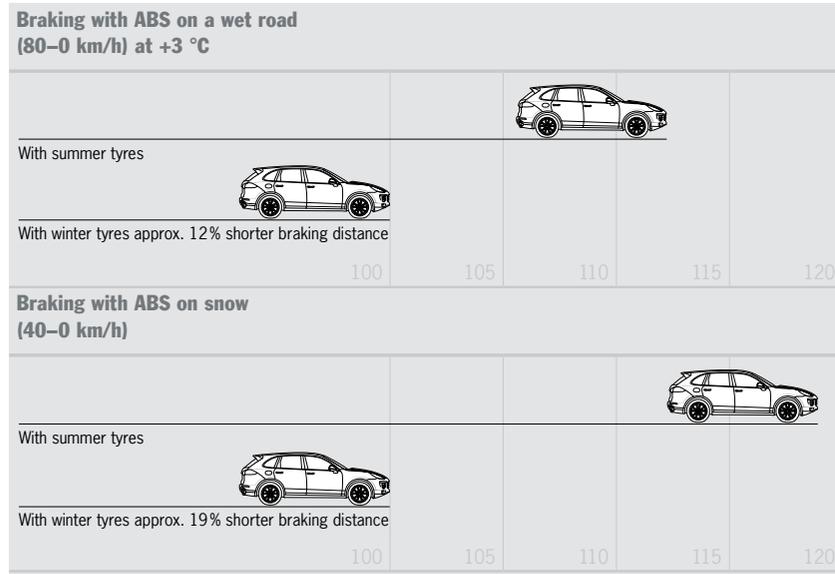

Specially designed for Porsche models for 18-inch, 19-inch or 20-inch wheels with winter tyres. Featuring ultra-fine links for minimal adhesion of ice and snow.

[2] Wheel centres

Set of wheel centres with full-colour Porsche Crest. The perfect finishing touch for any Cayenne wheel.

Not compatible with wheel spacers.

Tyre braking behaviour:

Fuel efficiency class, wet grip class and rolling noise:

Tyre type	Size	Fuel efficiency class/rolling resistance	Wet grip class	External rolling noise* (class)	External rolling noise (dB)
Summer tyres	265/50 R 19	C–B	A	🔊	73–71
	275/45 R 20	E	B	🔊	73–72
	295/35 R 21	E–C	A	🔊 – 🔊	74–72
All-season tyres	265/50 R 19	B	C–B	🔊 – 🔊	71–70
Winter tyres	255/55 R 18	E–C	C–B	🔊	72
	265/50 R 19	E–C	E–C	🔊 – 🔊	73–70
	275/45 R 20	E	C	🔊	72

For logistical and technical reasons relating to the production process, we are unable to accept orders for a particular make of tyre.
 * 🔊 Quiet rolling noise, 🔊 Moderate rolling noise, 🔊 Loud rolling noise.

[1] Crested valve caps

Set of 4 silver-coloured valve caps with embossed Porsche Crest.

For vehicles with Tyre Pressure Monitoring (TPM) and without TPM (not shown).

1

[2] Anti-theft wheel protection

4 wheel bolts for alloy wheels with effective coding system (Thatcham). 2 options available: for cars with and without wheel spacers (5 mm).

2

[3] Wheel bolts in black including anti-theft wheel protection

Set of 20 black wheel bolts, 4 of which are anti-theft bolts. With effective coding system (Thatcham). Two options available:

for vehicles with or without wheel spacers (5 mm).

[4] Wheel spacers

Wheel spacers create a wider track for enhanced stability and presence on the road. When fitted, your Cayenne will look even sportier, as the wheels run virtually flush with the body of the car. 2 versions

are available: 17 mm for rear axle or 5 mm for front and rear axles.

Not compatible with snow chains.

17 mm wheel spacers only available in conjunction with wheel arch extensions.

3

4

**The only alternative to performance?
Even more performance.**

As with all of our cars, there is one important detail that makes the Cayenne different from other sports cars: the Porsche DNA. This makes it a powerful athlete that can handle everyday journeys just as expertly as it does the racetrack. With powerful engines and dynamics to provide pure driving pleasure. So lots of sporting ability – which can still be increased. For even more performance. Even more dynamics. Even more goosebumps. On every centimetre of the road.

Performance

[1] Sports tailpipes

Twin tailpipes in a unique stainless steel design with silver chrome finish give the rear of your Cayenne an even more striking look.

[2] Sports tailpipes in black

Right at the back, but visually right out in front: twin tailpipes in a unique stainless steel design with a black chrome finish.

[3] Sports exhaust system (not shown)

The Cayenne sound. Powerful, earthy, sporty. And the best thing of all – you can add to it. Thanks to the sports exhaust system with modified main silencers including sports tailpipes in a unique design – with either a silver chrome or

black finish. The sports exhaust system is activated by an additional button in the centre console control panel.

Please note any additional model-specific equipment that might be included (see installation and conversion instructions).

Unlike the sports exhaust system available as an option direct from the factory for the Cayenne S, Cayenne Turbo and Cayenne Turbo S models, this system does not include the sound symposer for optimum sound inside the vehicle.

[4] SPORT PLUS mode retrofit package

Press the SPORT PLUS button at any time for an even sportier adjustment of the engine and suspension, including the accelerator pedal characteristic curve as well as Porsche Stability Management

(PSM) and Porsche Traction Management (PTM). With Launch Control function and performance display in the PCM and instrument cluster.

Only in conjunction with PCM.
Available without Sport Chrono stopwatch.

[5] Filler cap in aluminium look

The filler cap adds a high-quality detail to your Porsche. The design is based on the filler caps used on historical racing cars. It brandishes the 'PORSCHE' logo and is equipped with a locking device.

**Expands boundaries –
even those of your imagination.**

The Cayenne provides plenty of scope for the important things in life. Your personal space for example. How it looks is, of course, completely up to you. Sporty, elegant or both. There is a lot of room for your ideas. But in the end, with all of the dimensions, only one thing matters: proximity. Between you and your Cayenne.

We have put together a selection of high-quality materials to help you create the interior you desire. How about an elegant wood finish? The unmistakable grain of dark walnut is sure to entice you. And there is also brushed aluminium, carbon or leather to give your Cayenne even more character.

Interior

But your individual ideas have nothing to do with convention.

[1] Leather

Leather is a traditional natural material – a true classic. It is both timeless and hard-wearing.

[2] Dark walnut¹

The fine grain gives this classic, high-quality dark wood its unique appeal.

[3] Anthracite birch¹

This anthracite-coloured birchwood has an attractive wavy grain, an impressive dual-tone effect and a silky sheen.

[4] Natural olive¹

A high-quality ash wood with an olive grain and a silky matt sheen. For a natural look that is impressively elegant and individual.

[5] Yachting Mahogany¹

Inspired by the construction of exclusive yachts, mahogany is a fine dark wood. Light maple inserts provide a stylish contrast.

[6] Carbon

Carbon is a light but highly durable material which has its origins in motorsport. The ideal look for a racing atmosphere.

[7] Brushed aluminium

Brushed aluminium sets clear accents and lends the interior a sporty minimalist look.

¹ Since wood is a natural product, there may be variations in grain and form.

1

2

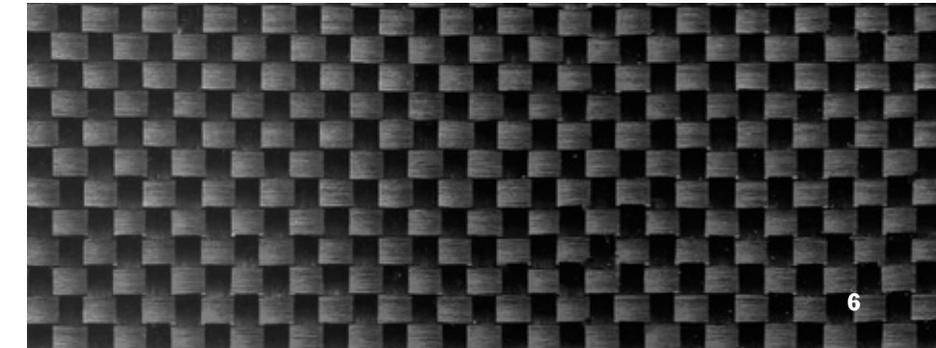

3

4

5

6

7

[1] Interior package

Would you like to make your Cayenne even more individual, even more refined? Our range of interior packages enables you to choose the finish you would like for the decorative trims on the dashboard and all

the doors, the decorative plate on the centre console and the front ashtray cover. Packages are available in dark walnut, anthracite birch, natural olive, Yachting Mahogany, brushed aluminium or carbon.

1

[2] Extended trim package

The extended trim package creates an outstanding effect when combined with one of our interior packages, but is equally attractive on its own. The extended trim package comprises the

2

Tiptronic S gear selector and the multifunction sports steering wheel rim (not including airbag module). Available in dark walnut, anthracite birch, Yachting Mahogany or carbon.

[3] Door handles and centre console grab handles

Includes the front and rear door grab handles and the centre console grab handles. Available in dark walnut, anthracite birch, natural olive, Yachting Mahogany or carbon.

3, 4

[4] Tiptronic S gear selector in aluminium

Tiptronic S gear selector specially designed in milled aluminium and with inlays in smooth-finish leather in the interior colour.

[5] Door handles and centre console grab handles in padded leather

The door handles in the front and rear and the grab handles on the centre console are all padded for excellent non-slip properties. Decorative seams complete the sophisticated appearance.

4, 5

[1] Drinks holder insert, large

Small insert, big effect. The drinks holder insert extends the edge so that tall drink containers can be carried safely. Can be used to extend the standard drinks holder in the Cayenne.

[2] Rear footrests

There's a lot of room in the back. In the footwells too. And thanks to these wedge-shaped footrests you can make yourself even more comfortable on the rear seats. They are covered in black carpet and the decorative Galvano look strips lend them an especially attractive appearance.

[3] Vehicle key painted

A special kind of door opener – one that's really pleasing to the eye. The painted side sections give your vehicle key a touch of individuality. A set, consisting of two side sections.

[4] Key pouch in leather

In smooth-finish leather with decorative stitching and embossed Porsche Crest. Available in selected leather colours. Includes a tether for the vehicle key.

[5] Key pouch in Alcantara

This material which has its origins in motorsport looks good when combined with your key. The key pouch is made from black Alcantara and the key tether and side sections are in black leather. With decorative stitching in selected colours and Porsche Crest.

[6] Ignition starter switch painted

Continue the personalisation on the inside as well: in conjunction with the Porsche Entry & Drive option, you can order the casing around the ignition switch in an exterior colour of your choice.

[1] Sun/privacy screen

Protects against direct sunlight and at the same time provides additional privacy. Clips in place in just a few minutes.

Four-piece set available for the windows in the rear area and one-piece for the rear screen (not shown).

[2] Reversible luggage compartment mat with nubuck edging

This reversible mat with nubuck edging including loading edge protection shields the luggage compartment from dirt and protects the vehicle paintwork from

scratches during loading. One side is trimmed in velour in the interior colour, the other side features a hard-wearing, waterproof and non-slip rubber surface. Available in selected interior colours.

Not compatible with luggage compartment management system.

[3] Floor mats with nubuck edging

Precision down to the last detail: four made-to-measure floor mats with nubuck edging, 'PORSCHE' logo and a

waterproof backing. Floor mat displacement is prevented by a special securing system. Available in selected interior colours.

[4] All-weather floor mats

Four made-to-measure floor mats in an appealing design featuring the Cayenne silhouette and 'PORSCHE' logo. Non-slip

and waterproof with raised surrounding edge. Available in the interior colours Black, Luxor Beige and Agate Grey.

[1] Carbon door sill guards

A sporty effect from all sides. Made from high-tech, lightweight carbon and featuring the model logo, these door sill guards deserve a closer look.

[2] Illuminated carbon door sill guards¹

Carbon door sill guards with white illuminated model logo highlight sports performance and extravagance in equal measure.

[3] Stainless steel door sill guards

A splendid highlight as soon as the doors open: stainless steel door sill guards with model logo.

[4] Illuminated stainless steel door sill guards¹

Why not set an illuminating example? These door sill guards with white illuminated model logo create just the right look.

¹ For the Cayenne S E Hybrid, the logo is illuminated in Acid Green.

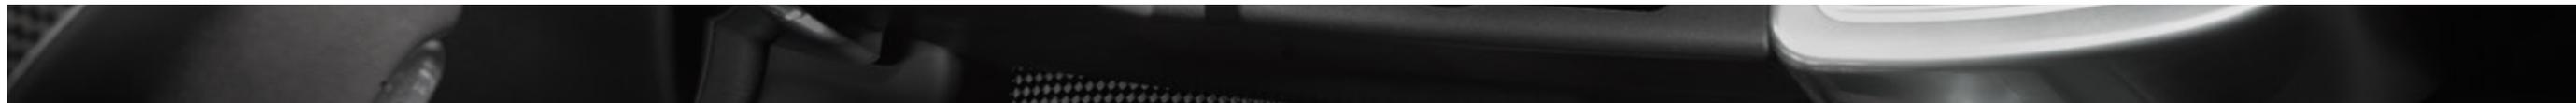

An athlete should listen to their inner voice – similarly when it comes to audio and communication equipment.

Your Cayenne is designed for performance – and great comfort. So of course, you expect the same from your communication equipment.

Whether it's with PCM, wireless Internet access or online services, with the high-quality products from the Porsche Tequipment range you can make the interior of your Porsche your own state-of-the-art control centre. With communication and audio equipment that will help you reach your destination quickly and safely. Without any detours.

Audio and communication

[1] PCM including navigation module and CD/DVD autochanger¹

The central information and communication system with a 7-inch colour touchscreen is easy to operate. The radio has an FM twin tuner with RDS diversity function. The six-disc autochanger plays CDs and audio DVDs and is MP3-compatible. Audio playback of video DVDs is also supported.

The GPS navigation system has a hard drive containing map data for most European countries. Other features include dynamic route calculation, a 3D map display and automatic route tracing, as well as navigation by compass and GPS in areas without digital coverage.

[2] Telephone module²

The quadband GSM telephone module offers convenience and excellent reception. By inserting a SIM card directly into the PCM/CDR Plus integral SIM card

reader, calls can be made using either the hands-free facility or the optionally available cordless handset. Alternatively, calls can be made with your mobile phone via Bluetooth®.

[3] Mobile phone preparation²

Mobile phone preparation is available for connecting mobile phones that support the Handsfree Profile (HFP) via Bluetooth®. When connected through HFP, the PCM/CDR Plus acts as a hands-free device. The mobile phone's basic functions can be operated via the PCM/CDR Plus. The GSM

connection is established through the aerial of the mobile phone.

[4] Voice control³ (not shown)

Nearly all of the functions of the PCM can be operated by voice control. It recognises instructions or series of numbers regardless of who is speaking.

It gives acoustic feedback and performs the functions. The system does not have to be taught. You can call contacts from the phonebook, adjust the radio settings or enter navigation destinations by speaking whole words.

¹ Only available for vehicles with BOSE® Surround Sound System, Burmester® High-End Surround Sound System or CDR Plus.

² Only available for vehicles with PCM/CDR Plus.

³ Only in conjunction with PCM including navigation module.

1

2

3

[1] Bluetooth® handset for telephone module

Handset with display and keypad – for private telephone calls. The handset is installed in the front centre console.

Only available for vehicles with PCM and telephone module.

[2] Electronic logbook

The electronic logbook enables the automatic recording of mileage, route distance, date and time, starting point and destination as part of every journey. Once you have downloaded the logbooks from the PCM via Bluetooth® or the USB

interface, the data can be evaluated on your home PC using the software supplied.

[3] Porsche Rear Seat Entertainment (new generation)

First class entertainment: with the latest generation of Porsche Rear Seat Entertainment, you can make your Cayenne fit for all entertainment possibilities.¹ With two high resolution

10.1-inch TFT touchscreen colour displays mounted on the backrests of the two front seats, integrated DVD player, two USB interfaces, one SD card interface and one HDMI interface, there is nothing more you could wish for in terms of entertainment. You can even surf the net while on the

road with the system's own Internet browser.² And the online store for downloading apps provides you with many more options. Anything else? We recommend the Porsche Bluetooth® headphones which are available to order separately.

¹ Only available for vehicles from 02/2010 up to and including 05/2015 and only if you already have Porsche Rear Seat Entertainment.

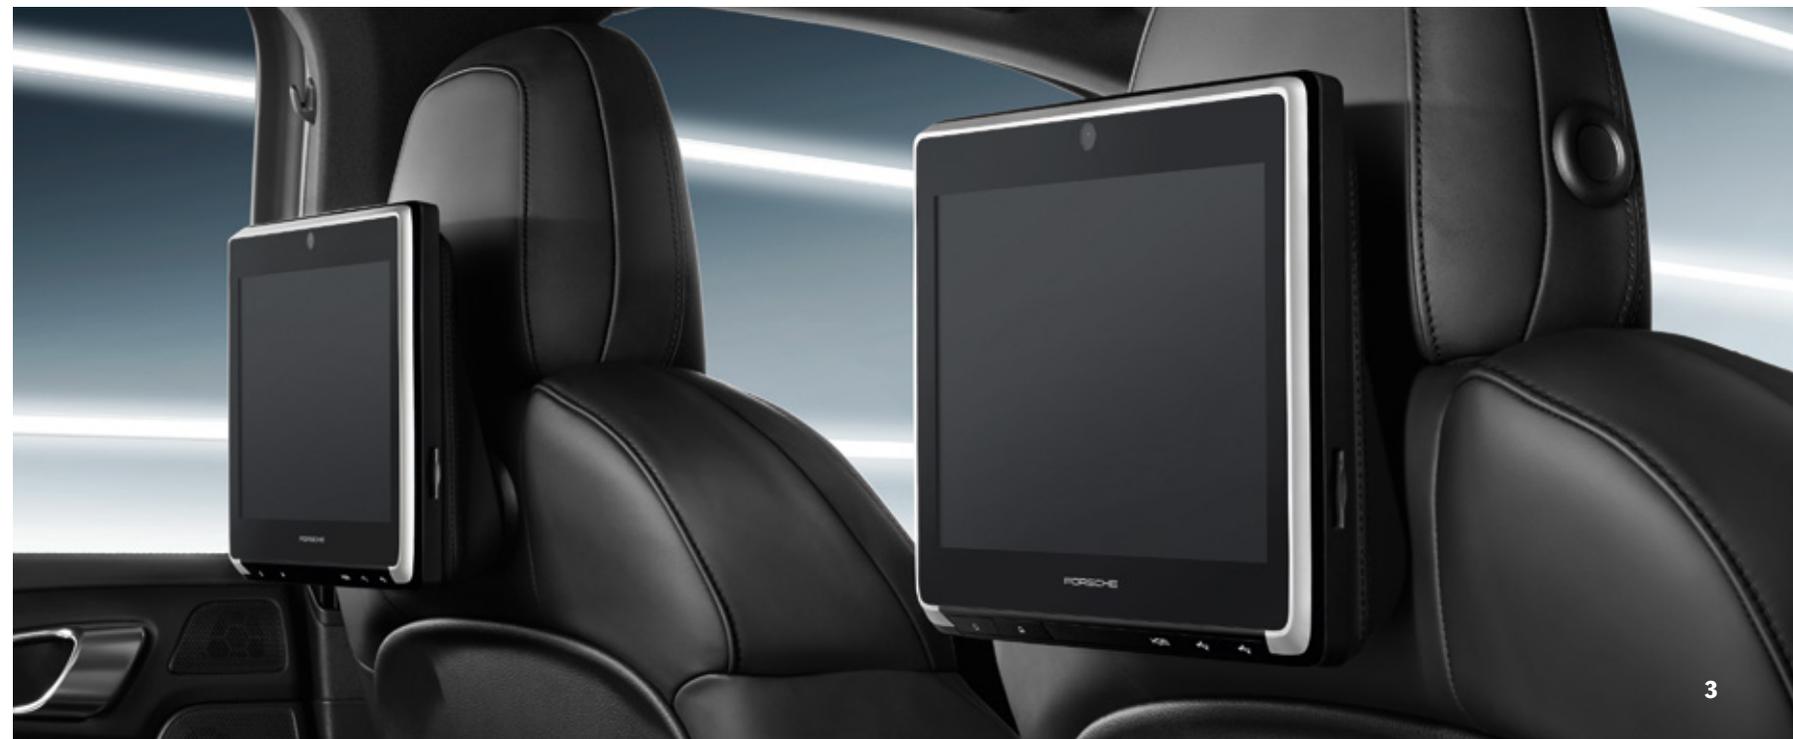

² The Internet connection can be made either with the optional wireless Internet access or using a smartphone or tablet as a hotspot (tethering).

1

2

3

[1] Porsche Bluetooth® headphones

The Bluetooth® headphones with 'PORSCHE' logo enable wireless listening enjoyment and can be connected to the Bluetooth® interface in the Porsche Rear

Seat Entertainment system. The Bluetooth® headphones fold away in a practical pouch for storage inside the vehicle.

Includes rechargeable batteries.

[2] Online services

The online services lets you call up various connected services such as web radio and customised web music, news feeds, weather information and podcasts from the PCM using the free Aha Radio app.

You can also search online for Points of Interest and set them as your navigation destination and use Facebook®, Google® Local Search, and much more, directly from the PCM.

The Aha Radio app is available free from iTunes® and Google Play®. For iPhone® and Android® devices.

[3] Wireless Internet access

A compact, high-end WLAN router installed neatly in the glove compartment and two additional aerials enable you to receive and broadcast the signal of your mobile network provider. Supports

LTE/4G and HSPA/UMTS or EDGE/GPRS/GSM networks. This convenient Internet access point gives you on-the-move online access from multiple WiFi-enabled client devices (e.g. laptops, smartphones or netbooks) inside the vehicle. Music, video

and image files can also be stored on a micro SD card¹ in the WLAN router and played back on devices connected to the WLAN network.

A data-enabled SIM card¹ and a separate valid subscription to a mobile network provider (subject to charge) are required for Internet access.

¹ Not included.

3

No room for compromise.

Why should transport and car care be any different?

It's as if the Cayenne has been made for the big things in life – quite literally. No matter what your plans are. After all, you shouldn't have to do without anything in everyday life or when travelling. Regardless of whether it's about comfort or transporting your equipment.

The roof boxes provide space for even bulky pieces of luggage. Or what about a ski/snowboard carrier or a racing bike carrier? And there are versatile luggage nets to secure your belongings in the luggage compartment.

And the little ones are well protected too. With Porsche child seats, they can travel safely and comfortably on any journey. And at the end of a journey? Hasn't your Porsche earned a little TLC? You will find everything you need to refresh your Cayenne from Porsche Tequipment.

Transport and car care

Only the best seats – for the little ones too.

What better feeling is there than sitting in your Cayenne? Sharing the enjoyment. With your children, for example.

Travelling in a Porsche is definitely a thrill, and with Porsche Tequipment child seats, it's for the little ones too. Now passengers below the age of 12 need never miss out.

[1] Porsche child seats

Porsche child seats meet strict safety standards. Specially designed, tested and approved for Porsche cars, they provide protection and comfort to passengers up to 12 years of age. The fabrics are

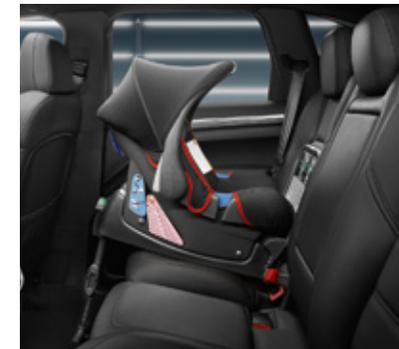

breathable, hypoallergenic and easy to clean with a removable and washable cover in black and grey and a contrasting red trim. The outer rear seats in the Cayenne are equipped with ISOFIX preparation as standard (available as an

option for the front passenger seat). These mounting points can be used to secure any Porsche ISOFIX child seat easily. Alternatively, all Porsche child seats can be secured using the standard three-point seat belts. For extra safety,

the Porsche Baby Seat and Porsche Junior Seat ISOFIX has an independent five-point belt system.

1

Model: Porsche Baby Seat + Base ISOFIX^{1, 2}
Group: G 0+
Weight: up to 13 kg
Age: up to approx. 15 months

Model: Porsche Junior Plus Seat ISOFIT^{1, 3}
Group: G 2–G 3
Weight: 15 to 36 kg
Age: approx. 4 to 12 years

Model: Porsche Junior Seat ISOFIX¹
Group: G 1
Weight: 9 to 18 kg
Age: approx. 9 months to 4 years

The use of a Porsche child seat on the front passenger seat is permitted only in conjunction with child seat preparation, available direct from the factory (order no. 3B9). The passenger airbag should be deactivated when carrying children up to 27 kg.

¹ ISOFIX/ISOFIT is a secure and user-friendly child seat mounting system that rigidly attaches the child seat to the vehicle.

² Separate Porsche Base ISOFIX available.

³ Also available as Porsche Junior Plus Seat.

**It makes your heart beat faster.
A feeling you can hold on to.**

It gives you everything, every day. Your Cayenne. With accessories and car care products from Porsche Tequipment you can give it something back in return. After all, all of the products are matched exactly to your vehicle. Just 100% Porsche.

[1] Roof transport system

The system is approved for a maximum roof load of 100 kg and is compatible with all Porsche Tequipment load-carrying attachments for different requirements. Sturdy securing clips and locks provide effective anti-theft protection.

Only in conjunction with factory-fitted roof rails. Long roof structures may limit the hatch opening angle.

[2] Ski/snowboard carrier, extendable

For up to six pairs of skis or four snowboards (approx. 60 cm loading surface). The locking ski and snowboard carrier is designed especially for the Porsche roof transport system and is

therefore easy to install. And the practical removal function means it is easy to load and unload.

[3] Ski bag (not shown)

Removable ski bag for practical transport of several pairs of skis or snowboards, away from the vehicle as well.

1

2

[1] Roof box 520

Lockable plastic roof box in black (high-gloss) or platinum look (not shown) with a capacity of approximately 520 litres and

an integrated ski carrier. Can be opened from either side of vehicle. Dimensions: L 2,180 mm, W 895 mm, H 400 mm.

[2] Roof box 320

Lockable plastic roof box in black (high-gloss, not shown) or platinum look with a capacity of approximately

320 litres. Plastic mats on the bottom of the box ensure secure loading. Can be opened from either side. Dimensions: L 2,060 mm, W 840 mm, H 340 mm.

1

2

[1] Bike carrier

Lockable carrier for all standard adult and children's bikes up to a maximum frame-tube diameter of 100 mm. The stabiliser

holds the bike securely in position so that it is easy to fasten. Up to three bike carriers can be mounted on the roof transport system.

[2] Racing bike carrier

Racing bike carrier with quick-action clip for the front fork and length-adjustable receptacle for the rear wheel. The front wheel can be stowed either on the roof

transport system or in a bag inside the vehicle. Also suitable for bikes with carbon frames. Up to three racing bike carriers can be mounted on the roof transport system.

[1] Rear-mounted bike carrier

Lockable, rear-mounted black aluminium carrier for up to two bicycles. Mounts quickly on the towbar system without the need for any tools. The hinge mechanism

means that the tailgate can open fully even with a loaded bike carrier mounted. Folds up compactly for convenient transport thanks to the integrated carrying handle.

Only available in conjunction with a towbar and only for left-hand drive vehicles.

Use of the optional heated cover is recommended to protect the bicycles.

1

1

[1] Electrically extending towbar system¹

The ball head of this towbar system moves electrically in or out at the push of a button. The maximum trailer load is

3,500 kg (braked trailer) with a maximum bearing load of 140 kg.

[2] Towbar system with removable ball head¹ (not shown)

Steel crossbar with push-on ball head. The maximum trailer load is 3,500 kg (braked

trailer), maximum support load 140 kg. With 13-pin connector.

Not available for the Cayenne S E Hybrid.

[3] Cool box

Easy-to-use cool box with 12-volt power connection and 12-litre capacity for food and drinks. Secured using patented

Porsche attachment system. Includes battery discharge protection.

¹ 13/7-pin adapter is available as an option.

[1] Luggage compartment partition net

For added safety when the vehicle is laden. The partition net is flexible with a choice of two attachment positions on the roof lining.

[2] Luggage nets

Easy-to-use floor and side nets (side nets not shown) enabling secure transportation of smaller objects in the luggage compartment. Floor net

is secured via four integral hooks to lashing points on luggage compartment floor. Both nets are highly elastic, enabling variable tension adjustment.

[3] Guard cage (not shown)

To protect the passenger compartment, this robust steel barrier is an effective retention system comprising a full metal grid positioned behind the rear seats. Includes a through-loading facility for skis and other long items.

Not compatible with panoramic roof system.

Not compatible with full-size spare wheel.

[4] Luggage compartment divider (not shown)

Adjustable grid for dividing the luggage compartment. Two fore/aft positions available.

Only available in conjunction with guard cage.

[5] Cargo liners, low-sided and high-sided

These made-to-measure waterproof and washable plastic containers offer protection against dirt and damage.

Available in two sizes: low-sided and high-sided. Both versions feature the 'PORSCHE' logo, supplemented on the low-sided version by the Cayenne silhouette.

[1] Outdoor car cover

Tailored outdoor cover in silver colour with full-colour Porsche Crest and 'PORSCHE' logo. Water-repellent, it provides excellent protection against a range of weather conditions including strong sunlight. Includes anti-theft protection.

[2] Indoor car cover

Tailored indoor cover made from breathable and anti-static fabric. With full-colour Porsche Crest and 'PORSCHE' logo.

[1] Car care case¹

High-quality car care products specially approved for the inside and outside of your Porsche in a practical carrying case

with accessories. Includes insect remover, shampoo, paint polish, wax, glass cleaners and leather conditioner, cloths, sponges and chamois leathers.

[2] Leather care kit¹

Set of cleaning and conditioning products for the Porsche leather interior in a practical case. Includes leather cleaner (100 ml), leather conditioner (100 ml), sponges and cloths.

[3] Wheel cleaning kit¹

Set of alloy wheel cleaning and care products in a practical carrying case. Includes wheel cleaner (acid-free, 500-ml spray bottle), a sponge and a set of three

brushes for stubborn dirt. Wheel cleaner is also available separately with a spray head and in a 1,000-ml refill bottle.

¹ All care products can also be purchased separately.

1

2

3

[1] Porsche Charge-o-mat¹ (not shown)
Battery charger (3.6 A) with charge maintenance and monitoring function.

[2] Porsche Charge-o-mat Pro¹
The higher charging output (5.0 A) of the Porsche Charge-o-mat Pro shortens battery charging time. An additional

charging mode for the Porsche lightweight battery (lithium-ion) means that it can also be used in motorsport.

¹ An adapter is available for direct connection to the vehicle battery. Not for the Cayenne S E-Hybrid.

[3] Microfibre cleaning cloths

Pack of three microfibre cloths enabling the PCM touchscreen and other delicate interior surfaces to be cleaned safely and efficiently.

[4] Ice scraper

Aluminium ice scraper with telescopic handle. Easily removes snow and ice from your Porsche. The integrated rubber lip enables water to be removed with ease.

[5] High-visibility jacket

This high-visibility jacket in luminous yellow with reflective strips was made with your safety in mind. Folds compactly away so that it can be stowed ideally in

the vehicle's glove compartment or other storage spaces.

In many EU countries it is a legal requirement to carry a high-visibility jacket in the vehicle.

The future starts right in your garage.

We build sports cars. Always have done. So the impulse to move forward, to be faster, to come first is anchored deep in our genes – not only when crossing the finishing line, but also with regard to new ideas.

So it is normal for us to take new directions. One new direction is hybrid technology.

The first chapter was opened at Porsche in 2010 by the Cayenne S Hybrid. And the story continues. With the Cayenne S E-Hybrid. A plug-in hybrid that can be charged from the socket. It is bringing our know-how together today and is initiating the Porsche e-mobility future.

E-mobility

[1] Charging pedestal

Charge your vehicle easily and conveniently at home. The practical mount – made from black safety glass, a brushed stainless steel frame and silver-coloured ‘PORSCHE’ logo – has been developed specifically for Porsche for mounting the

Charging Dock securely and conveniently. The charging pedestal can be installed so that it is free-standing (fixed to a sturdy base) and is recommended particularly when the Charging Dock cannot be mounted on a wall (dimensions: H 167 cm, W 42 cm, D 10 cm).

Please contact your Porsche Centre for information on installation. The Charging Dock and charger are not included.

[2] Charging Dock

The Porsche Charging Dock with black safety glass front and silver-coloured ‘PORSCHE’ logo enables installation of the Porsche Universal Charger (AC), e.g. on the charging pedestal. Suitable for all common industrial sockets. The Charging Dock has a receptacle on both sides for

the vehicle plug. Also suitable for outdoor installation. Lockable.

The Porsche Universal Charger (AC) shown in the picture and the optional charging cable are not included. Please contact your Porsche Centre for information on installation.

[3] Charging cable

So that you can always be flexible and charge while you are on the road: the charging cable (mode 3) from Porsche Tequipment enables you to charge your car at public charging points with type 2 plugs (EU standard) quickly and conveniently. The black charging

cable is 7.5 m long and suitable for currents up to 20 A (three-phase). The charging equipment can be stowed neatly away in the luggage compartment, in the carrying case provided.

If you need an additional mains cable – for travelling abroad for example – please ask at your Porsche Centre. They will be pleased to advise you on charging accessories.
