Telephone module for PCM and CDR Plus[2,3]	○	○	○	991 044 901 31	p. 44	Internal quadband GSM telephone module with Bluetooth® interface for convenience, excellent reception and optimised voice quality. Enables calls to be made in the following modes: – with inserted SIM card, calls are made through the GSM external aerial – via the Bluetooth® link established by the SIM Access Profile (SAP). Once the devices have connected to each other automatically, the mobile phone's GSM aerial is switched off to conserve battery charge and calls are made through the GSM external aerial (only available for mobile phones that support the SIM Access Profile) – via the Bluetooth® link established by the Handsfree Profile (HFP). In this mode, the GSM connection is made through the aerial of the mobile phone Includes microphone, hands-free function, mute function and operation of all the most important telephone functions, including call lists and phonebook access (depending on mobile phone), by PCM or CDR Plus, optional multifunction steering wheel or voice control system (depending on operating mode). Note: only available in conjunction with PCM including navigation module or CDR Plus audio system	**X,XXX.XX** X,XXX.XX
Bluetooth® handset for telephone module	○	○	○	991 044 900 32	p. 44	Comprises a Bluetooth® handset with display and separate keypad so that calls can be made and received privately in the presence of other passengers. Includes a charging cradle in the centre console storage compartment. Operation of the Bluetooth® handset is supported in SAP mode. Note: only available in conjunction with the telephone module	**X,XXX.XX** X,XXX.XX
Voice control system for PCM	○	○	○	991 044 900 36	p. 44	For control of virtually all PCM functions by voice. With word-by-word input of, for example, navigation destinations, phonebook entries or radio station names. Simplified control by means of dialogue-supported input and visualisation of menu-specific selection lists. Note: only available in conjunction with PCM including navigation module	**X,XXX.XX** X,XXX.XX
Mobile phone preparation[2,3]	○	○	○	991 044 900 33	p. 46	With Bluetooth® interface for connecting a mobile phone by means of the Handsfree Profile (HFP). Comprises hands-free function and mute function and operation of all the most important telephone functions, including call lists and phonebook access (depending on mobile phone), by PCM or CDR Plus audio system, optional multifunction steering wheel or optional voice control system. Includes microphone. Note: only available in conjunction with PCM including navigation module or CDR Plus audio system	**X,XXX.XX** X,XXX.XX

[1] Some products may be subject to an additional charge for fitment and/or painting.
[2] For information on compatible mobile phones, please visit www.porsche.com or contact your Porsche Centre.
[3] The use of a mobile phone inside a car may cause an increase in the interior electromagnetic field strength and, accordingly, in the electromagnetic radiation to which passengers are exposed. The use of the telephone module for PCM via Bluetooth® SAP connection or with inserted SIM card prevents exposure to electromagnetic radiation as only the car's external aerial is ever used.

[1] Data determined in the NEDC (New European Driving Cycle) in accordance with the Euro 5 (715/2007/EC, 692/2008/EC, 566/2011/EC and ECE-R 101) measurement method. The figures do not refer to an individual vehicle nor do they constitute part of the offer. They are intended solely as a means of comparing different types of vehicle. Fuel consumption calculated for vehicles with standard specification only. Actual consumption and performance may vary with items of optional equipment. A vehicle's fuel consumption and CO_2 emissions depend not only on its efficient use of fuel but also on driving style and other non-technical factors. The latest Porsche models with petrol engine are designed to operate on fuels with an ethanol content of up to 10%. You can obtain further information about individual vehicles from your Porsche Centre.
